

7. **Never, never leave a child alone in a parked car!**
8. **You must STOP at all Stop signs!**
9. **There have been days in the past when the police show up and monitor around the school. They do give out traffic tickets when people stop in the bus loading zones, Double Park or park illegally – this is a safety hazard and you will get a ticket!**

We all need to be a part of the solution! Please do your part to keep ALL the children SAFE!

CANDY SPLIT

Thanks to all the students who shared their candy. You were very generous! We sent five huge boxes of candy, to share with our servicemen overseas, though Project Gratitude. A big thank you to Rosie Villero and Desiree Dawson, for their help with this rewarding project.

5TH GRADE PARENTS

The final year at Haynes for your child has begun, and we hope all is going well. Though you and your child are just getting used to 5th grade, we'd like to take this opportunity to inform you about a few details regarding magnet programs at the middle schools. Since the CHOICES brochure application is now on-line, you need to apply by the deadline, December 16th. You **MUST** complete an application if you wish your child to attend a middle school magnet.

Between now and December 16th, we will receive information regarding some

of the magnet school tours and will pass this information on to you via your child. Magnet tours provide excellent opportunities for you and your child to learn more about individual school programs, to ask questions, and to meet some of the staff members.

In addition to magnet sites, LAUSD has added "Advanced Studies Programs" for identified gifted students at various school sites. You may call the District One Office at 818 654-3600 with questions regarding this program.

The Matriculation from 5th Grade to 6th Grade is a big change and we want to help make the transition as smooth as possible.

After School Student Safety

Students staying afterschool for any amount of time are under the supervision Coach Steve, of youth services. Youth service has an emergency form to be filled out by every student's parents. It's very important to have this contact information available after hours. Please make sure you complete the form and turn it in.

Children are not allowed to use the apparatuses without adult supervision. After school parents may supervise their own child on the apparatus. Apparatus procedures can be found on the Haynes Street School website, haynesstreetschool.com. Let's keep all our students safe!
